

# Life gets easier with the George Propane SmartPay plan

## ➤ Comfortable billing.

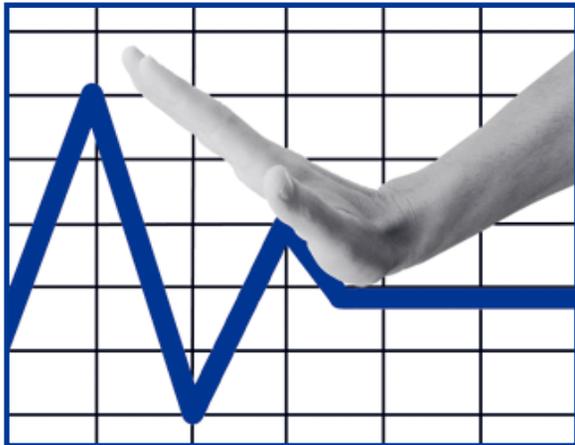

The SmartPay plan makes life easier with 11 monthly payments to help manage your winter heating bills.

## ➤ Peace of mind.

With the price protection fee incorporated into your monthly billing, you're protected from rising fuel costs.

## ➤ Convenient automatic payments.

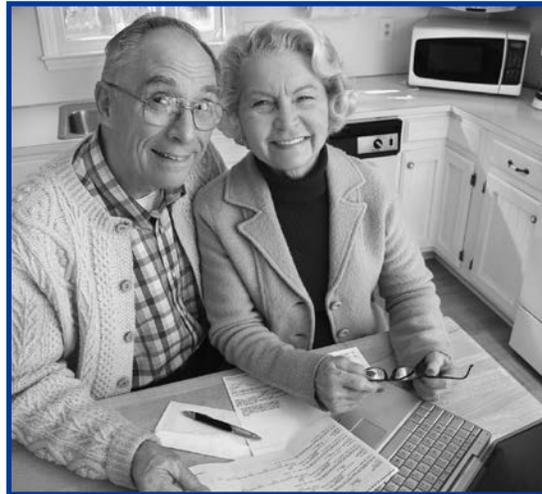

Payments are automatically deducted from your checking or savings account. George Propane will initiate the transaction on or about the 10th of the month.

## We're your energy savings partner

Your SmartPay plan can help you spread out your payments, pay less for your fuel and cut back on your winter heating costs.

We can help you increase your home comfort, too! **We're your energy savings partner**, bringing you the best heating service and technology, and helping you **save money at the same time.**

# SmartPay—it's the smart way!

## CONTROL heating bills

Everyone is looking for ways to make winter heating bills more manageable. That's why we created a plan that promises to help.

## CHOOSE the SmartPay plan

With the SmartPay plan, you can spread your costs over 11 months and reduce your winter heating bills. You don't get hit with the bulk of your annual fuel costs all at once.

## PROTECT your price

With our **price cap option**, we guarantee your price per gallon will not rise dramatically. Your price will **never** go above your contracted price cap. But if fuel prices drop, your price will **go down**.

Our suppliers charge a fee for this price protection, which we pass on to you. However, if you would prefer not to pay the fee, you can still spread out your payments with the SmartPay plan. You will be billed on a monthly basis, but your fuel price will float up and down with the market.

## WHAT the SmartPay plan does for you:

### ► No more unpleasant surprises.

Even if energy prices rise or winter brings record-breaking cold temperatures (and you need two or more deliveries in the same month), you won't get hit with a huge fuel bill. The SmartPay plan eases the financial burden of winter heating bills. This takes away a lot of worries about heating your home during a long, cold winter.

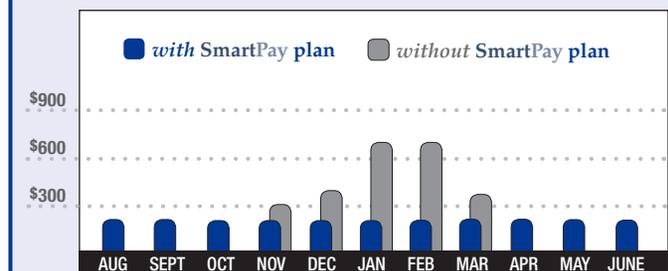

### ► Automatic payments.

For your convenience, we set you up so your payments are made automatically:

- You authorize your bank to pay us directly through our **electronic funds transfer** program. Most people prefer to pay this way because they save money on checks and stamps.
- You'll still have complete control over your account, but with automatic payments, you'll save time and avoid the stress of being late with your payments.

## HOW the SmartPay plan works for you:

### SmartPay plan comparison

Sample billing cycles for a typical family using 900 gallons of propane annually. Figures are for comparison purposes only.

To estimate your payments, we look at your fuel delivery record from the previous three years and project your total propane costs for the coming season. We divide that amount into 11 easy monthly installments, and you make just one payment each month. The 12th month is a "catch-up" month.

**If your actual fuel costs are a little higher or lower than estimated**, we'll make adjustments throughout the year. You don't use more propane. You pay only for the fuel you receive.
